Vertical Multistage Pump

EBITT was born from “an idea” and turned into “an ideal”

EBITT is a specialized organization with deep expertise in pump and fluid technologies, capable of accurately interpreting both Turkish and global market demands and translating them into the right solutions.

Founded to be the ideal intersection of supply and demand in fluid technologies, EBITT goes beyond developing and marketing products. It represents a holistic business model built to meet expectations at the highest level.

More than a company, EBITT is a perspective, a system, and a spirit. Its foundation is human capital and accumulated expertise, transferred sustainably like a relay race rather than treated as a traditional capital asset.

For EBITT, innovation is not limited to technological advancement. It is a creative, value-driven approach that prioritizes responsibility, customer expectations, business efficiency, and uncompromising standards for health and safety. Every innovation emerges from this integrated understanding.

Quality, for EBITT, is a non-negotiable standard in all areas involving water and fluids—throughout life. Together with its suppliers, customers, and team members who share this philosophy, EBITT builds long-term, sustainable win-win relationships.

With this mindset, EBITT offers a wide range of products and systems, from basic solutions to process-specific equipment, serving residential, industrial, agricultural, irrigation, pool, treatment, and specialized applications. Beyond standard products, EBITT also delivers tailor-made solutions that maximize added value.

EBITT believes the ideal solution is not always the most expensive one, but the most rational—optimizing needs in the most efficient way.

Positioning itself as a trusted solution provider, EBITT stands out with its values, flexibility, and dynamic structure, ready to respond to evolving demands.

MV

VERTICAL MULTISTAGE PUMP

Application

- Water supply: Pressure boosting for main pipes and high-rise buildings
- Industrial pressure boosting: Water system, cleaning system, high pressure washing system and firefighting system
- Pressure boosting for pressure tank, sprinkling irrigation and trickling irrigation
- Air conditioner, cooling system and industrial cleaning

Features

Economic vertical multistage pumps

Applicable for a wide scope of different temperatures, flow rates and pressure ranges

Water inlet and outlet can be rotated for proper assembly in accordance with installation requirement

Easy installation and maintenance · Advanced hydraulic model design, featuring stable operation and high efficiency

Cast iron water inlet and outlet with special anti-rust treatment

High-strength engineering plastic flow passage components

Reliable stainless steel welded shaft

Working Conditions

Liquid temperature: +5°C~75°C

Max. ambient temperature: +40°C

Max. operating pressure: 15 bar

Altitude: up to 1000 m

Standard voltage:

Single-phase: 220~240V/50Hz

Three-phase: 380~415V/50Hz

Mater Table

No.	Part	Material
1	Fan Cover	08F
2	Fan	PP
3	Rear Cover	Cast Iron
4	Bearing	
5	Stator	
6	Rotor	
7	Gasket	Rubber
8	Flange	Cast Iron
9	Motor Bracket	Aluminum
10	Mechanical Seal	Ceramic/Carbon
11	Pump Barrel	AISI 304
12	Impeller	Plastic
13	Diffuser	Plastic
14	Last Stage Diffuser	Plastic
15	Capacitor Box	Plastic

Identification Codes

MV-213-22-T
